:((We have no refund policy)):-

According to the contract, appropriate action is possible if a checked item is found to be baseless. Unfortunately, that may render the franchise agreement inoperative.

We have a no-return policy, because we cannot take back a service we have provided or an item already purchased.

We provide both including-tax and excluding-tax services — both are available according to the amount the system calculates. Commission applies only to the amount received, less the GST charge and material cost.
